

The background of the entire page is a photograph of a landscape at sunset or sunrise. In the foreground, several wind turbines are visible, their silhouettes softened by the hazy light. In the background, a range of mountains stretches across the horizon. The sky is a mix of warm orange, yellow, and light blue tones, creating a serene and hopeful atmosphere.

ANNOUNCEMENT

INTERNEF

INTERNATIONAL ENERGY FORUM 2026

ENERGY AND FOOD SOVEREIGNTY IN THE AGE OF DEGLOBALIZATION

**10TH ANNIVERSARY INTERNEF AS A GLOBAL ENERGY
FORUM MODELED AFTER DAVOS**

The 10th anniversary INTERNEF will be held in Zagreb in mid-October 2026. The theme of the forum is ENERGY AND FOOD SOVEREIGNTY IN THE AGE OF DEGLOBALIZATION.

The FORUM will be a cross between energy, agriculture and digital technology in the context of new geopolitics.

The idea is that from the tenth edition, **INTERENEF** will develop as a **GLOBAL ENERGY FORUM modeled after Davos, headquartered in Zagreb.**

The geopolitical position of the **Republic of Croatia**, as a Mediterranean and Central European country, provides the opportunity to construct a **GLOBAL ENERGY FORUM** as a global communication point and meeting point for actors in the field of energy. Let's do it together!

The **anatomy of the power of the Global Energy** Forum is formed by a quadrilateral:

1. the academic community,
2. the business community (companies),
3. the political community and
4. the media community.

The **geopolitical position** of the Republic of Croatia is a fate that encourages a metropolitan challenge regardless of the size of the country. A little is nice! **This is political aesthetics.** A small thing can be powerful if it wants to, and if it chooses to. **This is /geo/ politics** that implies the **interaction of macro and micro physics of power.**

Let a GLOBAL ENERGY FORUM be born in Zagreb that will systematically deal with **energy policy and the geopolitics of energy.** There is no similar forum in Europe and the European Union. This is an opportunity for **Zagreb and the Republic of Croatia** to become the center of **global communication** on the topic of **energy policy and the geopolitics of energy.**

Good luck to the new **GLOBAL ENERGY FORUM!** You need to be maximally courageous for a maximally defined goal. Whatever goal you set, you will achieve. **Let's play a big game!** The game of power and the power of the game!

ART IS LONG, AND LIFE IS SHORT / ARS LONGA, VITA BREVIS!
